

Hi Greg,

We just wanted to thank you for the absolutely AMAZING job you did on our concrete countertops!!!! Every single person that has come into our home has complimented us on them (and asked a LOT of questions...they are definitely conversation pieces...especially the integrated trough sinks in our ensuite!)

We are so, so glad that you were referred to us when we were choosing the finishing materials for our new house. We were trying to decide whether to do our countertops in granite, quartz or to try out concrete (which we knew very little about). We knew we were willing to try something more cutting edge and unique for our house as we wanted a contemporary look, but also wanted it to feel cozy rather than cold. After meeting with you and learning more, we were surprised at how different your concrete process was compared to what (little examples) we'd heard about or seen on home improvement shows. You basically provided us with limitless possibilities of shape, size, colors, blending & enhancements, which ensured we got the EXACT look we were going for. And they are ONE-OF-A-KIND, which we love!!

From the first time you came to show us samples, you have gone ABOVE AND BEYOND with your service! The fact that you custom made different samples for us (several times!) and brought them back to make sure you had the right colors and tones made all the difference! You were always more than willing to do whatever it took to make sure we ended up with what can only be described as **pieces of art that perfectly compliment the style of our home**. You truly are an artist!

The pride you take in your work, is evident in every piece you made for us. Knowing that you have so much experience working with countertops (of various types of materials) and seeing that you focussed on and noticed the smallest little details throughout each countertop made us feel at ease. We discovered that (like any true artist would likely be) you are much, much pickier about your work than anyone else could ever be! This made us feel very comfortable.

We are very, very happy with the pieces you did for us and the outstanding service and attention you personally gave to us (and our home). So much so, that we want you to come back and do another unique design for the bar counter-top in our basement!

Thanks again.

Sincerely,  
Aaron and Cyndi Snider.  
Sherwood Park, AB
